Membership Option Priva	e & Institutional: CHF 200	Corporate: CHF 500

The undersigned agrees and adheres to the following terms as well as the rules governing the association:

iThEC (international Thorium Energy Committee) is a politically neutral, non-governmental and strictly not-for-profit association governed by Swiss law. The association actively pursues the following goals through its members, either natural persons or corporations:

a) Promote the incineration (transmutation) of civilian and military nuclear waste through an ADS (Accelerator-Driven System);

b) Support thorium-based energy production, which is environmentally sound, safe, and non-proliferating;

c) Place its resources at the disposal of public or private entities for the realisation of goals a) and b);

d) Collaborate with any entity pursuing similar goals.

Membership is composed of

- Founding Members who initiated the association or played a role in its founding
- Active Members, supporting the association through fees, grants and activities

Membership may be lost through resignation, exclusion for justifiable causes, non-payment of membership fees. Members bear no personal responsibility for the activities of the association.

The association is governed by the general assembly which is convened at least once a year. Decisions are taken by the majority of the members present at the assembly.
